

Half price sale now on, plus an extra 10% off sale prices. Hurry, ends Saturday!

GET A GUIDE PRICE

From a range of configurations and standard designs this tool will help you build your dream kitchen, customising as you go, as well as get a guide price.

The first thing to do is work out the approximate size of your kitchen as all our prices are based on typical kitchen layouts - small (8 units), medium (12 units) and large (16 units). We've also provided guide pricing for the essentials like worktops and appliances so you can get a better idea of the overall cost of your preferred kitchen ranges, as well as the prices of various installation packages we offer. Of course, your kitchen will be unique, so it's always best book a free design appointment to get a quote from one of our expert designers that's tailored to you, your space and your family. Your designer will always give you options that work to your budget.
