1

### Total Price

**£2,393.00**

## Installation Specialist Works Price Guide

The below costs are provided as a **guide only** and are designed to give you a non binding indication of the types of specialist works that may be required. The actual scope and costs of the specialist works will be dependant on the condition of your current electric, gas, plumbing and extra items required such as tiling and sockets.

The installer will provide you with an accurate breakdown of the specialist works required and the costs for undertaking such works immediately following the completion of the pre-installation home survey. The specialist works to be undertaken by the installer will form the basis of a separate contract between you and the installer and payment for such specialist works should be made by you directly to the installer.

Wickes provide the below pricing guidelines to ensure that our customers are charged a fair and market competitive price for specialist works. The list of works below is a **guide only**; further charges may apply in addition to those set out below for any further specialist works identified during the pre-installation home survey

The specialist works listed below are covered under the Wickes 2 year workmanship guarantee.
